We would be happy to know that you are interested in developing not only the economic activities of your members but also the values that make up the strength of our common commitments.

Because with French people in the Philippines and Filipinos in France we want to strengthen economic, tourist and cultural ties between our countries.

With all the cooperative members of good will and motivated

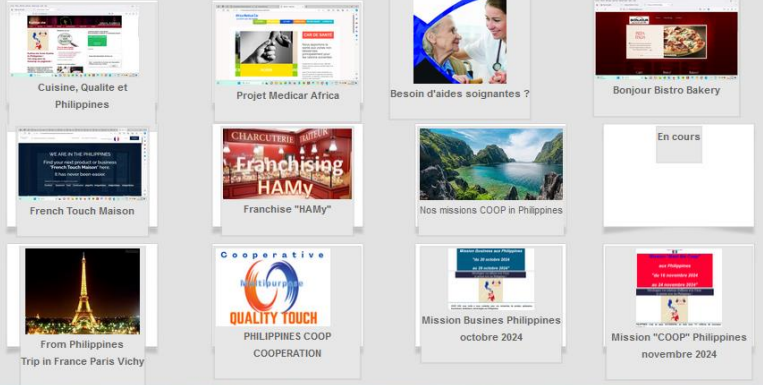

And so we wish

CHARCUTERIE TRAITEUR

Butcher.

Charcutier.

Head of charcuterie laboratory.

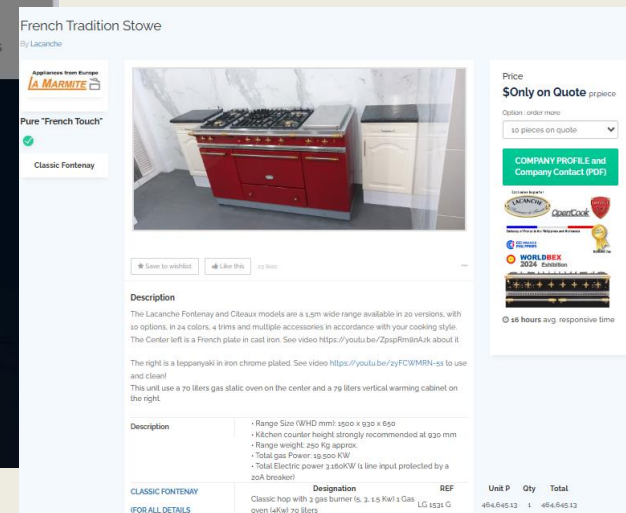

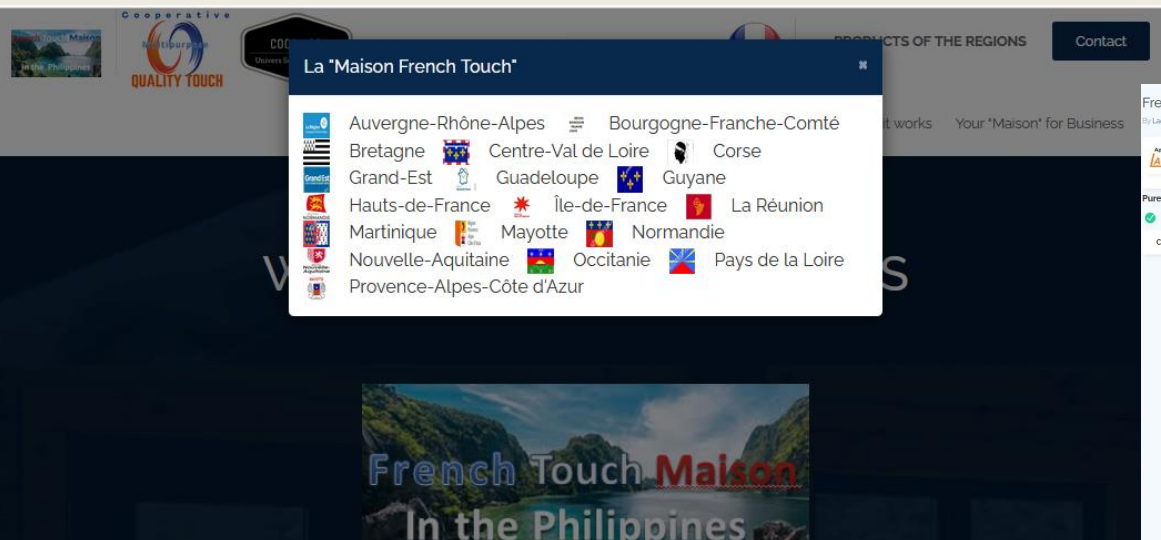

Jambon d'Auvergne
Best product quality
Visit the product

Pork is the basis of the diet in the Philippines, yet apart from rough cutting due to a total lack of training, there are few cured pork products. The "HAMy" Franchise aims to create a network of charcutiers who self-produce their own realizations but integrate Auvergne ham and sausage products for resale.

Charcuterie is a product made from pork meat or offal. The word also designates the store where this type of product is sold and all the professionals who sell it.

Butchers and "Charcutiers"

And above all we are developing in the Philippines The “French Touch Maison”

Regional Promotions and marketing of regional BEST PRODUCTS “Made in France”
