

You are a culinary

Institute in Laguna

We are

“FRENCH

charcuterie”

A dynamic way to promote Charcuterie

We could be a partner

In the Philippines

France and every region of France is undoubtedly a major place in global gastronomic culture as you know

We think that certain aspects of French know-how could complement the training you provide to your students

We note that the “charcuterie” offer is not at the level of the appetite of the Filipino population for products mainly based on pork

if you wish to provide your students with a new sector in the field of “Charcutiers Butchers “ based on a Commun Diploma with a French School

- And to diversify your training offer to enhance basic products by providing them with “added value”
- and to open a new path for new generations of gourmets

We would be happy to consider a partnership with your Institute

- ☐ to train Filipino “ charcutiers”
- ☐ To establish a REAL appetite for quality Charcuterie from French Touch Quality
